## Ezi Vue 5" HD ELECTRONIC MAGNIFIERS

This 5" electronic video magnifier is a handy aid to those dealing with low vision and macular degeneration. Small and compact, it can come to your aid anytime, anywhere. It magnifies from 4X to 32X on its LCD screen, offers multiple display modes to suit your individual vision needs. It allows you to freeze text, adjust brightness, highlight on reading text horizontally and vertically, capture/save/recall images for easier viewing. This video magnifier is a great aid to reading, viewing maps, menus, recipes, and medication labels. It is also great for reading labels and tags at retail stores or anywhere you need bright, convenient magnification.
